

SuperMax® VS

Variable Speed Pump

by Sta-Rite

Pump up to 80% energy savings back into your pocket

NEW SuperMax VS pumps bring the remarkable energy cost savings of variable speed technology to standard pools at an affordable price. They slash energy costs by up to 80%* while helping to keep your pool sparkling clean and inviting. SuperMax VS pumps come to you from the trusted leader that launched variable speed technology to the swimming pool industry years ahead of every other pump manufacturer. No wonder we still outsell all other variable speed pumps. The SuperMax VS pump is easy to install. Its advanced digital display also makes it easy to use, and unlike others, you don't have to buy and install a separate timer.

- Only variable speed pump on the market today with 110/230 volt capability.
- The SuperMax VS pump costs significantly less to operate because its variable speed technology moves water more efficiently at lower speeds.
- Ideal for standard pools requiring up to 1.5 hp pump.
- Affordable for new and standard pool pump replacement applications.
- Simple, intuitive user interface displays watts, RPM, current time and remaining program duration.
- Easy-to-access electrical connections for simple installation.
- Direct...and superior drop-in replacement for the Hayward® Super Pump®.

ENERGY STAR® Certified SuperMax VS pumps from Pentair meet strict energy efficiency criteria set by the U.S. Environmental Protection Agency and the U.S. Department of Energy. These pumps save money, reduce energy use and protect the environment.

SuperMax[®] VS Variable Speed Pump

Easy-to-read display makes programming and monitoring a cinch

Real-time, 24-hour clock; no need to install a separate external unit

Tough, engineered polymer pump body and durable, totally enclosed fan cooled (TEFC) motor give years of trouble-free service

Easy to install. Easy to operate. Easy on your ears.

For pool owners who want to step-up to the energy savings of variable speed technology, the SuperMax VS pump is the wise choice. It will save up to 80% on operating energy costs versus standard single-speed pumps*. And the SuperMax VS pump is engineered for easy installation, simple operation, and trouble-free service.

- Three operating speed settings plus override capability.
- Wiring is easy and unlike other pumps, the electronic board is not exposed to exterior elements at installation.
- 110/230 volts, 50/60 Hz single phase.
- UL 60730 Compliant.
- Ultra-quiet TEFC motor.

An Eco Select[®] Brand Product

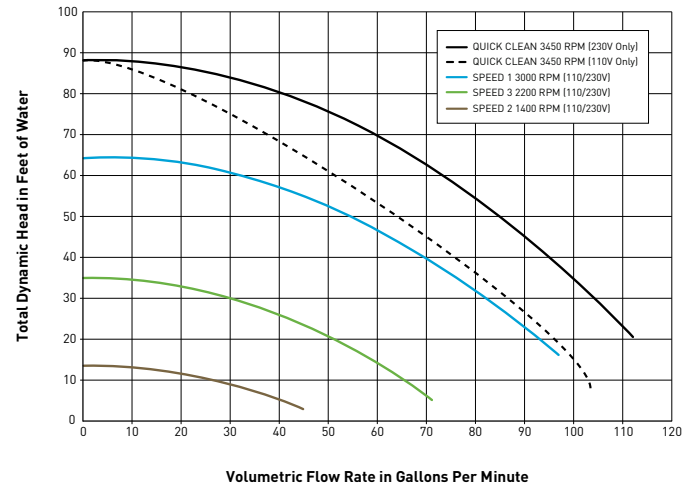

The SuperMax VS pump has earned the Eco Select brand distinction as one of the “greenest” and most efficient choices from Pentair. Eco Select products are designed to help you save energy, conserve water, eliminate or reduce noise, or otherwise contribute to a more environmentally responsible equipment system.

*Savings based on variable speed pump compared to a single-speed pump running 12 hours per day at an average of \$0.16 per kWh in a 20,000 gallon pool. Actual savings may vary based on local utility rates, pool size, pump run time, pump horsepower, pump rpm, plumbing size and length, pump model, service factor and other hydraulic factors.
